RNLI TRAINING COLLEGE, POOLE

The RNLI required the ability to add sheltered dining space to the restaurant at their new training college in Poole, Dorset.

The canopy we designed and installed meets the specifications for all permanent external structures, yet can be taken down and put into storage when required.

The versatility of the design also allows for just the wall panels to be removed, leaving the roof panels in place.

Main Contractor: Dean and Dyball Construction, Ringwood
Architect: Poynton Bradbury Wynter Cole, St Ives
